

Shaded relief base from U.S. Geological Survey digital elevation data, 1/3 arc-second resolution

Explanation

- USGS regional model
- USGS Hydrologic Framework Model
- USGS storage depletion model
- BCM (Flint, 2014)
- TJ GW Model (DOE, 2003)
- ASR & SWI (Boyle, 1996)
- Lower SW GW Study (Boyle, 1993)
- Phase 2 GW Study (Dudek, 1994)
- San Diego River Basin
- GW Exploration (Dudek, 1997)

Location of San Diego Hydrogeology study area and model study boundaries in San Diego County, California and Baja California, Mexico.
